

TREAT YOUR WATER. IMPROVE YOUR BUSINESS.

COMMERCIAL REIONATOR®

No matter what business you're in, every decision you make affects your bottom line. Choosing to install a water treatment system has more than one type of return on your investment, especially if you decide to install a Commercial Reionator.

When soft water and high flow rates are required, look to our innovative and proprietary technology found only in the Reionator to remove water hardness and reduce chlorine taste and odor at your business or facility. Our proven multi-resin process also reduces that slippery feel often associated with softened water. No matter what your application, we design a custom Reionator Commercial Reionator system that delivers the ultimate in quality water, while meeting your business needs.

COMMERCIAL REIONATOR®

THE BENEFITS ARE BEYOND COMPARISON.

Saves Energy

Minerals will no longer clog pipes. Water-using equipment will be free of scale buildup, last longer and will perform more efficiently resulting in energy savings of up to 30%.

Saves Money

You can reduce utility bills, labor costs, maintenance costs and equipment expense.

Enhances Customer Experience

Customers will notice spot-free tableware and glassware, softer towels and overall cleaner facilities.

Improves Taste

The Reionator reduces chlorine taste and odor, improving quality of food and beverages.

Reduces Detergent and Chemical Use

Softened water has no mineral hardness to react with or overcome, reducing detergent and chemical requirements by up to 50%.

Increases Equipment Lifespan

Reduces scale buildup in machines and appliances, which ensures peak efficiency and increased lifespan of your equipment.

BUILT TO LAST. GUARANTEED TO SATISFY.

The Reionator Commercial Series is built with the best commercial-grade, corrosion-resistant parts in the industry. We are confident the Reionator Commercial series systems will withstand the usage requirements in many business applications including:

- Restaurants
- Hotels
- Apartment complexes
- Beverage industry
- Convenience stores
- Hair salons
- Fitness centers
- Much, much more

Backed by the best warranty in the Industry

To show our confidence in the Reionator Commercial Series, WaterTech provides the best warranty in the industry – a five-year warranty on all parts, including valve, tanks and even resin* – an industry first.

* Five year resin warranty valid for systems using municipal water.

REIONATOR Commercial Series

Flexible Choice of Valve Sizes	1.5", 2", and 3"
Assortment of Available Tank Sizes	Up to 63" diameter
Variety of Softening Capacities	Up to 2,300,000 gains*
Large Range of Possible Flow Rates	Up to 275 gpm*

* Per tank; multiple tank configurations available

Model	Grains Capacity (@9 Lbs/@ 15 Lbs Salt Settings)	Max Recommended Flow Rate (gpm)	Continuous Flow Rate (gpm) @ 15 PSID	Peak Flow Rate (gpm) @ 25 PSID	Max Flow to Drain (gpm)	Resin Tank Size	Brine Tank Size
