

# RID YOUR WATER OF UNWANTED TASTES AND ODORS.

## SORBMAX™

Ideally, you want your water to be clean, pure and tasteless. Yet, often times it can carry with it contaminants and other chemicals that cause foul odors and leave undesirable tastes behind. For whole-house water filtering that leaves your water tasting better, look no further than the SorbMAX—a superior system designed to effectively reduce or remove chlorine, chlorinated byproducts, dissolved organic contaminants (including synthetic organic chemicals), metallic tastes, foul odors and other troublesome contaminants that affect water quality.

# SORBMAX™

## FILTER OUT THE DISTASTE.

It starts with the SorbMAX filtration system.

### Reduce chlorine for more enjoyable water.

The SorbMAX reduces the excess chlorine left behind after proper disinfection at the municipal level. When you remove unnecessary chlorine in your home's water supply, you eliminate the unpleasant smells, tastes and skin irritation often associated with chlorine.

### Taste and smell left behind.

SorbMAX is a whole-house filtration system that provides tasteless and odorless water from every tap in the house. The carbon filter removes chlorinated byproducts, dissolved organic contaminants (including synthetic organic chemicals), metallic tastes and other contaminants that can interfere with water quality to ensure clean, fresh tasting water flowing through your home.

### User-friendly.

The SorbMAX is simple and user-friendly with maintenance free in/out head that needs no service.

## SYSTEM FEATURES

### Built to Last

Manufactured with durable, commercial-grade, corrosion-resistant components, the SorbMAX includes a strong product warranty (5 years on valve/10 years on tank).

### Certified Media & Components

The media is third-party certified to NSF/ANSI Standard 61 ensuring the product complies with strict manufacturing standards. The components are also certified to NSF/ANSI Standards 44 and/or 61.

### Operating Parameters

pH	5.5 – 9.5
Temperature	Min. 40°F – Max. 110°F
Other considerations*	Water should be free from oil and suspended matter Water Should be free from iron and turbidity

\* TechSorb C5 media will need to be replaced periodically as it exhausts

## HOW IT WORKS

- 1 Untreated water flows through the TechSorb™ C5 activated carbon bed.
- 2 As water passes through the TechSorb C5 carbon bed, it attracts and captures contaminants within its pore structure - removing or reducing a wide range of taste and odor causing contaminants as well as other unhealthy chemicals.
- 3 Clean tasting water enters your home - providing healthier, cleaner water to you and your family.
