FLAWLESS WATER BECOMES THE NORM

Smoother, Cleaner Skin and Hair

Your skin is like a sponge, absorbing water—and any impurities in that water. In fact, impurities in your home's water can be devastating to your skin, contributing to dry and irritated skin, eczema, acne and more. When you use the Reionator Pro Fusion™ system, you'll see and feel positive effects of cleaner, clearer, healthier water in your stronger, healthier hair and more radiant skin.

Feel the Excellence

This isn't simply soft water. With the Reionator Pro Fusion™, you'll feel the difference on day one, and you'll wonder how you went so long without it. Kiss the soft water "can't wash the soap off" feeling goodbye forever. Instead, you'll shower in water that feels refreshing and protects you from contaminants. Reinvigorate, relax and rejuvenate in a spa-like experience—all in the comfort of your own home.

Protect Your Appliances

Hard water—full of calcium and other rocky minerals—pummels your appliances and fixtures with every use. Worse, the minerals aggregate over time and can congest your plumbing like clogged arteries. With the Reionator Pro Fusion™, enjoy the peace of mind knowing your investment will protect your appliances and plumbing for the long term.

Clean Effortlessly

The minerals in hard water make cleaning your home more difficult than it needs to be. It makes you use more soap to get something clean. It leaves spots and streaks. Hard water makes cleaning virtually impossible. It's time you upgraded to water from the Reionator Pro Fusion™, which will make cleaning and polishing a breeze.

THE SYSTEM

A Triton™ Control Valve

Our workhorse electronic metered control with high-efficiency programming that anticipates usage, making it 40% more efficient in energy, water and salt conservation. The user-friendly interface and built-in diagnostic service features make your system smart, but very easy to operate.

B Reionator Pro™ Tank with AquaHelix™

Our high-pressure composite tank is built to resist corrosion and high water pressure, providing you with peace of mind.

C TechBlend™ Multi-Media Resin

This innovative technique allows the Reionator Pro Fusion™ to provide you with the best in water softening; addressing hard water, iron*, lead*, sulfates*, nitrates*, and chlorine.

D Embedded AquaHelix™ Plate

This revolutionary technology is designed to provide optimum water flow through the system, effective use of the TechBlend™ media, and incredibly efficient performance for resin cleaning.

HOW IT WORKS

- 1 Untreated water flows through the upper distribution cone where it is prepared to be processed.
- 2 Positively charged TechSelect™ resin reduces aesthetic chlorine taste and odor while creating a water that feels fantastic.
- 3 Negatively charged TechSoft™ resin softens water by reducing calcium and magnesium.
- 4 Filtered water flows effortlessly through the AquaHelix™ plate and is delivered to your home providing better tasting/smelling water, and cleaner laundry, softer skin, easier cleaning, as well as soap, energy, and appliance savings.
- 5 When the TechBlend™ resin is ready to be cleaned and recharged, the system uses a brine (sodium or potassium) solution in concert with the AquaHelix™ plate to efficiently lift and clean the resin while providing significant salt and water savings due to its revolutionary design.

RAISING THE BAR.

Unparalleled Limited Lifetime Warranty

We're so confident the Reionator Pro Fusion™ will perform for years to come that we offer one of the strongest warranties in the industry covering the valve, tanks, resins and electronics. Better water, for the rest of your life.

Made in America

When you purchase a WaterTech Reionator Pro Fusion™, you're supporting the American economy. Our products are hand-built by our own craftsmen in our Texas factory using the very best components and techniques in the industry.

NSF/ANSI 42 & 44

Third Party Verified

Many water softener manufacturers use certified components in their systems, but often the entire system as a whole is not certified. The entire Reionator Pro Fusion™ water conditioner system and its internal parts have been certified by IAPMO R&T, and it carries the renowned UPC symbol certifying that the system meets or exceeds both NSF/ANSI Standards 42 and 44 for chlorine reduction and softening efficiency, ensuring this is the best product on the market.

CLEARLY SUPERIOR.

The best tasting water available—at every faucet

BENEFITS

THE REIONATOR PRO FUSION™: BECAUSE YOU DESERVE BETTER.

- Healthier, softer skin
- Stronger hair
- Superior taste
- Reduced slippery feel of softened water
- Spot-free dishes and glassware
- Exceptional cleaning ability
- Remarkably clean laundry
- Less soap and cleaning products used
- No scale buildup faucets and fixtures

- Longer-lasting appliances
- Improved energy efficiency
- Time, money and energy saved
